Honestly this is not the first time that we have been served our trays with maggots. I can only wonder what else we (Detainees) have been served in our trays that we detainees have not been able to see because "it" might have been chopped up and/or blended and so that way we (Detainees) wouldn't have been able to spot "it" whatever that "it" might have been. Come on people be serious men! we (Detainees) deserve better treatment, because we are Humans too you know. Where is that fair treatment rights that you guys talk about, <del>or that only applies to you guys</del> that is just reserved for you guys? now tell me what you guys are going to do about this very serious matter (Contaminated food) are you going to investigate the kitchen people to see what else they have done to the food that they serve us (me). food that my 5 adults American borned kids ages 20-31 yrs old help pay for because they all have jobs and pay taxes, so are my 4 naturalized American Citizen Sisters and my 2 Brothers that are also naturalized American citizens. They all also contribute with their taxes dollars (because they work too) to pay for this food that you guys are giving me, and so I have the right to complain for better treatment in case you think that I'm just another "Criminal" bound to be deported and so I should shut the hell up, well, you are so very wrong, thank you very much, God Bless you all</i></p>
